

# Color Bar 18 RGB

The DecaLED® Color Bar 18 RGB is a multicoloured line fitting, which is ideal for lighting coves, walls and light boxes with LEDs. The DecaLED® Color Bar 18 RGB emits a strong, homogeneous light over an area of 8 metres.

The DecaLED® Color Bar 18 RGB is equipped with 18 Luxeon I W LEDs, with 10 x 35° lenses. The asymmetrical lens is ideal for lighting walls and light boxes. A version without lenses is available for applications in which the light does not shine on walls or façades. This has a wide beam angle of 120°. The housing is made from plastic and aluminium, which results in a rigid, excellently designed product. The DecaLED® Color Bar 18 RGB has a power consumption of approximately 20 Watts and must be connected to a DecaLED® High Power DMX Controller TV. One DecaLED® Color Bar 18 can be connected to each of the controller outputs. The product dimensions of the version with lenses are 600 x 81 x 73 mm (l x w x h) and the dimensions of the version without lenses is 600 x 47 x 60 mm. The connecting cables are 3 metres in length.

Apart from the DecaLED® High Power DMX Controller TV, there are no further accessories available for the DecaLED® Color Bar 18.

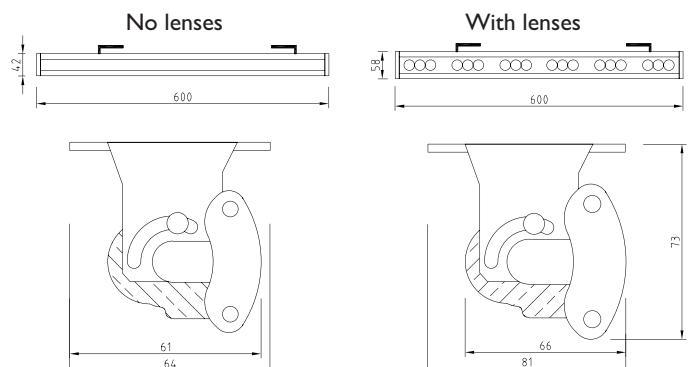

In addition to the RGB version, we also offer a range of single colour designs, including cool white, warm white, blue and smart white versions. The smart white version is equipped with 12 warm white and 6 cool white LEDs. Further information on this product can be found on page 79.

### DecaLED® Color Bar 18, no lenses

Product specification	
Code	95153919
Description	DecaLED® Color Bar 18, RGB, 60cm, no lenses
Price	See pricelist
Voltage	24VDC
Current	3 x 350mA
Power consumption	20W
Max. chainable	1
Current at max. chain	3 x 350mA
Power cons. at max. chain	20W
Control	DecaLED® High Power DMX Controller TV
Max. per controller	6
Max. per output	1
LED properties	1W Luxeon LED
Dimensions	600 x 47 x 60 mm
Weight	1200g
Info	RGB
