Color Beam 12

Waterproof IP65

The DecaLED® Color Beam 12 is a multicoloured LED fitting that can be used as a replacement for AR.111 fixtures and as an intense, multicoloured spotlight for applications in shops, display windows and display cases.

The DecaLED® Color Beam 12 is equipped with 12 Luxeon PowerLEDs, with four of each colour (RGB). The DecaLED® Color Beam 12 was designed as a replacement for AR.111 spotlights and therefore fits into almost any AR.111 fitting. The dimensions are 111 x 46 mm (w x h). The power consumption of the DecaLED® Color Beam 12 is approximately 15W. The product must be connected to the DecaLED® High Power DMX Controller TV. One DecaLED® Color Beam 12 can be connected to each output on the DecaLED® High Power DMX Controller TV.

The DecaLED® Color Beam 12 is supplied as standard with 30˚ lenses. We also offer 60˚ lenses as an option.

Other products with similar specifications include the LagoLED® BEAM.111, DecaLED® High Power Replacement Bulbs and the DecaLED® Color Pod 15. These can be found on pages 23, 55 and 75.
