

# Color Pod 15

The DecaLED® Color Pod 15 is a multicoloured ceiling fixture with 15 Luxeon 1W LEDs, which is ideal for lighting walls, floors, façades or as universal mood lighting.

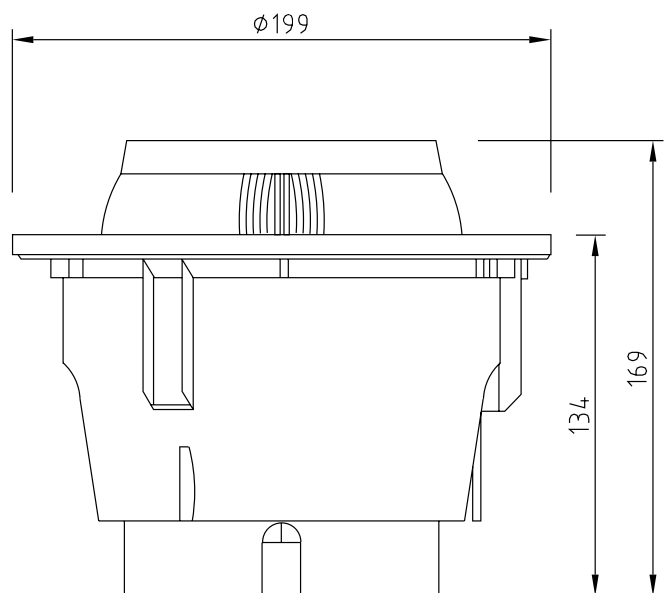

The DecaLED® Color Pod 15 is equipped with 15 Luxeon 1W LEDs, with 5 of each colour (RGB). The white, plastic housing is equipped with mounting clips for wall or ceiling installation. The LEDs have a lens of 10° and are integrated into a superbly designed housing with a rotating head, which can be rotated approximately 120°. The DecaLED® Color Pod 15 has a power consumption of approximately 18Watts and must be connected to the DecaLED® High Power DMX Controller TV. One Color Pod 15 can be connected to each output on the DecaLED® High Power DMX Controller TV.

In view of the fact that the installation of the Color Pod 15 always requires a DecaLED® High Power DMX Controller TV, a separate link cable must be ordered. This is 5 metres in length.
