

# IP PSUs

## Waterproof IP68

DecaLED® IP Power Supply Units have been carefully selected for their scope of application, size, use of materials and efficiency. DecaLED® IP Power Supply Units are ideal for both indoor and outdoor applications, including in illuminated advertising and façade and cove lighting.

We offer a 12 and 24 VDC version of the DecaLED® IP Power Supply Unit and we have 30W, 60W and 150W versions available of both. The IP68-rated Power Supply Units are equipped with a coated, waterproof housing, as well as 230VAC input and 12 or 24VDC output cables measuring 20 cm in length. The output cables must be linked together and must be connected to the selected product. The power supply units are all very compact. Further information regarding the dimensions can be found in the product specifications.

In addition to the IP68-rated power supply units, we also offer a range of regular 12 or 24VDC power supply units. These can be found on the next page.

### DecaLED® IP PSU 12VDC 30W

Product specification

Code	95791203
Description	PSU for outdoor use
Price	See pricelist
Voltage	12VDC
Current	30W
Power consumption	2.5A
Dimensions	200 x 30 x 20 mm
Weight	100g

### DecaLED® IP PSU 12VDC & 24VDC 60W

Product specification

Code	95791206	95792406
Description	PSU for outdoor use	PSU for outdoor use
