

RGB Module

DecaLED® RGB Modules are easily connectable, compact modules with multicoloured LEDs, which are primarily used as cove lighting, line lighting and indirect lighting. DecaLED® RGB Modules are popular due to their ease of installation and broad scope of application.

DecaLED® RGB modules are white strips, measuring 10 cm in length, which are equipped with 5 SMD RGB LEDs and cable connectors to guarantee a solid connection between the DecaLED® RGB Modules. The DecaLED® RGB Modules have a beam angle of 120° and an energy consumption of 1.5W p/s. The RGB Modules measure 100 x 16 x 20 mm and can be installed in links of up to a maximum of 5 metres on one of the DecaLED® Controller I outputs.

We have a range of accessories available in stock, including starter and link cables, mounting clips, and plastic line profiles. The DecaLED® RGB Module is delivered as standard with a mounting clip and a 10cm link cable.

DecaLED® RGB Module

Product specification	
Code	95150249
Description	DecaLED® RGB Module
Price	See pricelist
Voltage	24VDC
Current	60mA
Power consumption	1.5W
Control	DecaLED® Controller I, DecaLED® Driver TV for RGB Modules
Max. per controller	200
Max. per output	50
Connection	Terminal
LED properties	5 RGB SMD three-in-one chips per module
Dimensions	100 x 16 x 19.5 mm
Weight	11g
