

Universal Profile

The DecaLED® Universal Profile is intended to facilitate the professional installation of various LagoLED® and DecaLED® products into walls, ceilings and floors. It is ideal for fitting Strips, Flex, Cove Flex and other products.

Two different versions of the DecaLED® Universal Profile are available: the 20mm and the 40mm version. Both profiles are supplied with either a diffuser or a clear cover. The profile is delivered in a standard length of 2 metres, yet can be manufactured to size for an additional cost.

We supply special mounting clips to guarantee safe and reliable installation.
