

# Dance Floor

The LagoLED® Dance Floor is a modular floor, measuring one square metre, with 4 integrated colour-changing tiles. The LagoLED® Dance Floor is suitable for permanent installations and is used in discos and clubs and is available as a lease item for events.

The LagoLED® Dance Floor incorporates a base frame developed in collaboration with Prolyte, into which 4 LagoLED® DEKO Panels are integrated. The module is equipped with 4 clips, into which the feet can be fixed. The modules measure 1000x1000x105 mm (l x w x h). Including the small feet, they measure 1000x1000x175 mm (l x w x h).

The LagoLED® Dance Floor comes with a range of different length feet and XLR-6 cabling in lengths of 2.5, 5 and 10 metres.

The LagoLED® Dance Floor is frequently used by professional hire companies. Permanent installations are often equipped with a custom-made subfloor, base frame and standard (or custom-made) LagoLED® DEKO Panels. We can also assist you with this.

## LagoLED® Dance Floor

### Product specification

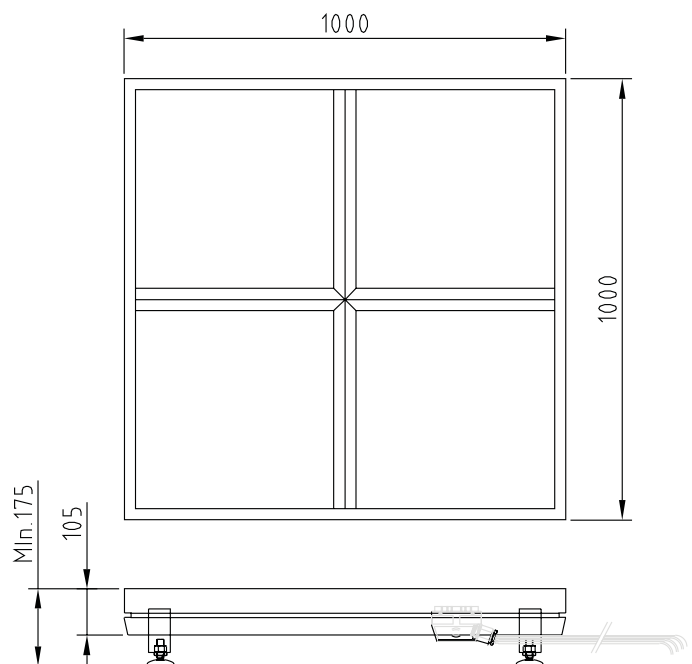

Code	95660100
